Abstract

Tartalom:

- Fekete G.: Sixty years activity of prof. Bálint Zólyomi in the field of plant ecology
- Jakucs P., Berki I., Holes L., Tóthmérész B.: Lokate industrielle Emission und Waldschäden in Nordungarn I. Problemstellung, Ausgangshypothese und zusammenfassende Wertung
- Berki I., Holes L.: Lokate industrielle Emission und Waldschäden in Nordungarn II. Mineralstoffgehalt des Bodens und der Blätter von Quercus petraea s.l.
- Holes L., Berki I.: Lokate industrielle Emission und Waldschäden in Nordungarn III. gestaltung des Nebenwurzelwerkes Bäumen.
- Jakucs P., Babos K.: Lokate industrielle Emission und Waldschäden in Nordungarn IV. Jahrringbreiten und Tracheenvrstopfungen von gesunden und erkrankten Quercus petraea (Matt.) Liebl. Stämmen
- Turcsányi G.: Adaptability of trees to the Changing Environment. (A theoretical approach to the possible causes of forest decay)
- Virág K., Gerencsér L.: Seed bank in the soil and its role during secondary successions induced by herbicides in a perennial grassland community
- Borhidi A.: El efecto ecologico de la roca serpentina a la flora y vegetación tropical en Cuba
- Kiss K. T.: Dispersal and growth-forms: an approach towards an understanding of the life strategy concept of lichenology
- Vánky K., Tóth S., Gönczöl J., Révay Á.: Further six species of Ustilaginales new to Hungary
- Parnell J.: revision on the genus Jovibarba and consideration of the Sempervivum tectorum/marmoreum complex and S. montanum subsp. carpaticum
- Szabó A.T.: The white clover (Trifolium repens L.) gene pool I. Taxonomic review and proposals
- Babos K., Cumana L.J.C.: Xylotomical examinations of some Venezuelan legume-

tree species l. Caesalpiniaceae)

- Máthé I. jr., Kemertelidze E.P., Máthé I. sen., Vadász Á., Mardeleishvili T., Alania M.: Comparative study of the iridoid production of Hungarian and georgian *Galium verum* L. populations
- Herdi F., Tóth K., Bóka K.: Effect of MNNG, a chemical carcinogén on the development of sunflower (*Helianthus annuus* L.) and the tissue structure of its stalk
- Bobák M., Sekerka V.: Ultrastructural changes of mitochondria during cell differentiation of explants
- Fekete G.: Book reviews

forest management

forest diseases, pathogens, pests

forest ecology

forest structure: herb layer
