Összefoglalás

Priorities in biodiversity conservation and research in the Acceding and Candidate Countries and their integration in the European Research Area  
Proceedings of an Electronic Conference, 3-21 February 2003  
Andrzej Bobiec: Bialowieza Primeval Forest: Taming the reference  
Society for Protection of the Bialowieza Primeval Forest (TOPB)

erdődinamika, lék dinamika, szukcesszió

erdőgazdálkodás

természetvédelem

Megjegyzések

Priorities in biodiversity conservation and research in the Acceding and Candidate Countries and their integration in the European Research Area  
Proceedings of an Electronic Conference, 3-21 February 2003  
Andrzej Bobiec: Bialowieza Primeval Forest: Taming the reference  
Society for Protection of the Bialowieza Primeval Forest (TOPB)  
Summary: Europe will lose its richest source of information on forest development unless the management of the Bialowieza Primeval Forest respects its calibration value.
