

Az **ER Archívum** külön kezeli a "Publikációk"-at és külön a "Kéziratok, dokumentumok"-at. Ebben a gyűjteményben az ER Program célkitűzéseire kapcsolódó szakcikkek és kiadványok találhatóak.

Blasi, C. (2010): Old-growth forests: An ecosystem approach. Introduction. <i>Plant Biosystems</i> 144(1): 128-129. (Tovább)	2010
Brunialti, G., Frati, L., Aleffi, M., Marignani, M., Rosati, L., Burrascano, S. & Ravera, S. (2010): Lichens and bryophytes as indicators of old-growth features in Mediterranean forests. <i>Plant Biosystems</i> 144(1): 221-233. (Tovább)	2010
Certain, G. és Skarpaas O: Nature Index. General framework, statistical method and data collection for Norway. NINA Report, 542. 47 pp. Oslo, 2010. (Tovább)	2010
Corona, P., Blasi, C., Chirici, G., Facioni, L., Fattorini, L., & Ferrari, B. (2010): Monitoring and assessing old-growth forest stands by plot sampling. <i>Plant Biosystems</i> 144(1): 171-179. (Tovább)	2010
Cowell, M.C., Hoalst-Pullen, N., Jackson, M.T.: The limited role of canopy gaps in the successional dynamics of a mature mixed <i>Quercus</i> forest remnant. <i>Journal of Vegetation Science</i> , (21): 201-212, 2010. (Tovább)	2010
Janik, D., Adam, D., Vrska, T., Hort, L., Unar, P., Kral, K., Samonil, P., Horal, D. (2011): Field maple and hornbeam populations along a 4-m elevation gradient in an alluvial forest. <i>Eur J. Forest Res</i> (2011)130:197-208 (Tovább)	2010
Dean, C. & Wardell-Johnson, G. (2010): Old-growth forests, carbon and climate change: Functions and management for tall open-forests in two hotspots of temperate Australia. <i>Plant Biosystems</i> 144(1): 180-193. (Tovább)	2010
DeSantis, R. D., Hallgren, S. W., Lynch, T. B., Burton, J. A. & Palmer, M. W. (2010): Long-term directional changes in upland <i>Quercus</i> forests throughout Oklahoma, USA. <i>Journal of Vegetation Science</i> 21: 606-615. DOI: 10.1111/j.1654-1103.2010.01168.x (Tovább)	2010
Diaci, J., Rozenbergar, D. & Boncina, A. (2010): Stand dynamics of Dinaric old-growth forest in Slovenia: Are indirect human influences relevant? <i>Plant Biosystems</i> 144(1): 194-201. (Tovább)	2010
Dobolyi, K. & Virág, P. (2010): Grassland-woodland mosaics in the Kisszénás Forest Reserve (Hungary). <i>Studia Botanica Hungarica</i> 41: 129-142. (Tovább)	2010
Dodelin, B. (2010): Saproxylic beetle biodiversity in old-growth forests of the south-east of France. <i>Plant Biosystems</i> 144(1): 262-270. (Tovább)	2010
European Environment Agency (2010): 10 messages for 2010 - Forest ecosystems. Copenhagen (Tovább)	2010
G.S. Gilbert et al: Beyond the tropics: forest structure in a temperate forest mapped plot. <i>Journal of Vegetation Science</i> , 21: 388-405.2010 (Tovább)	2010
Hill, R.A. et al: Mapping tree species in temperate deciduous woodland using time-series multi-spectral data. <i>Applied Vegetation Science</i> , 13: (86-89), 2010 (Tovább)	2010
Hirka A. (szerk.) (2010): A 2009. évi biotikus és abiotikus erdőgazdasági károk, valamint a 2010-ben várható károsítások. ERTI Erdővédelmi Osztály, Mátrafüred (Tovább)	2010
Jakucs E. (2010): Egyes magyarországi erdők ektomikorrhizái. [MTA doktori értekezés tézisei]. <i>Mikológiai Közlemények</i> 49(1-2): 167-175. (Tovább)	2010
Kanals, P. et al. (2010): Seasonal and diurnal variability in sap flow intensity of mature sessile oak (<i>Quercus petraea</i> (Matt.) Liebl.) trees in relation to microclimatic conditions. <i>Acta Biologica Hungarica</i> 61: 95-108. (Tovább)	2010
Kardol, P., Todd, D. E., Hanson, P. J. & Mulholland, P. J. (2010): Long-term successional forest dynamics: species and community responses to climatic variability. <i>Journal of Vegetation Science</i> 21: 627-642. (Tovább)	2010
Keeton, W.S., Chernyavskyy, M., Gratzner, G., Main-Knorn, M., Shpylchak, M. & Bihun, Y. (2010): Structural characteristics and aboveground biomass of old-growth spruce-fir stands in the eastern Carpathian mountains, Ukraine. <i>Plant Biosystems</i> 144(1):148-159 (Tovább)	2010
Király, I. & Ódor, P. (2010): The effect of stand structure and tree species composition on epiphytic bryophytes in mixed deciduous-coniferous forests of Western Hungary. <i>Biological Conservation</i> 143: 2063-2069. (Tovább)	2010
